

1. Do you believe reducing government regulation is a bigger factor in improving the economy than increasing government spending?

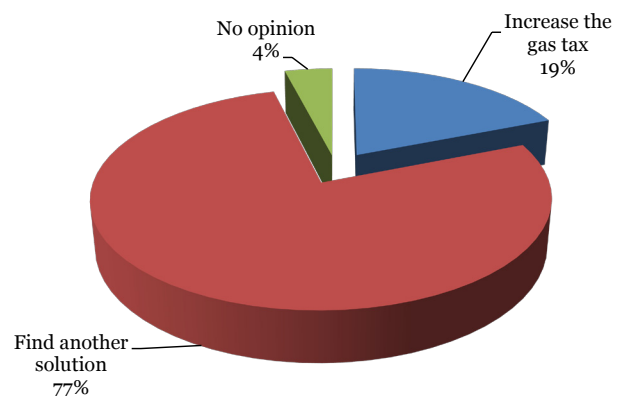

2. We recently announced a continued focus on finding more ways to increase job opportunities in Indiana. Do you believe job growth should be a priority in the 2013 legislative session?

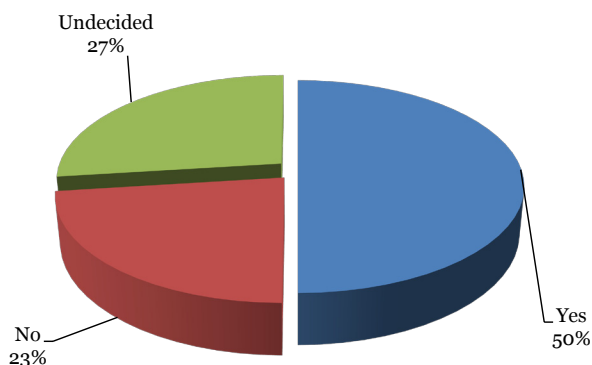

3. According to the Skills Gap report, 67% of manufacturing companies nationwide reported a moderate to severe shortage of available, qualified workers. Do you think high schools should provide improved career and technical education programs to better prepare graduates to qualify for job openings?

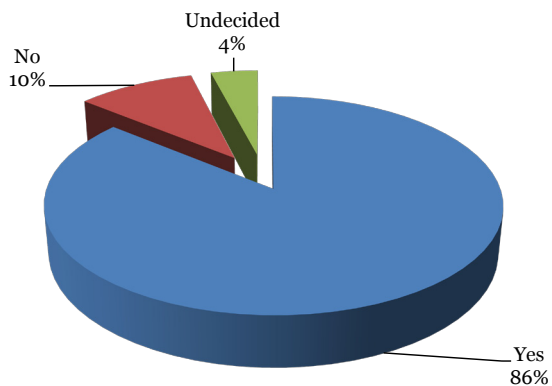

4. We currently pay an Indiana gas tax of 18 cents per gallon. In 2007, that gas tax produced \$570M in revenue for road funding. In 2011, it only produced \$543M. Do you support increasing the gas tax as a way to generate additional revenue for road funding or should the legislature find another solution?

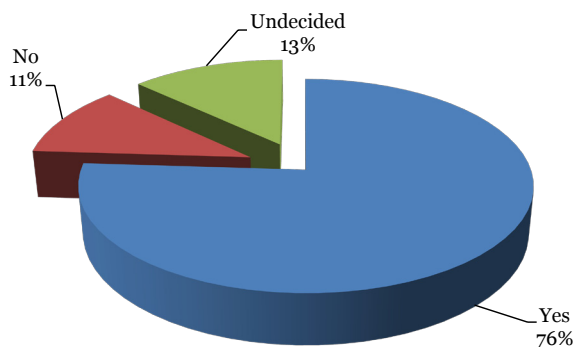

5. Do you favor initiatives to expand the commercial use of Compressed Natural Gas (CNG) in vehicles?

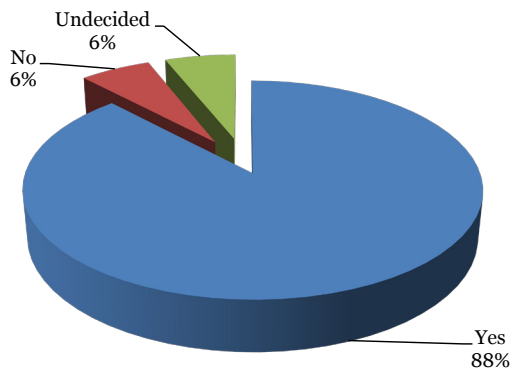

6. Do you believe Indiana, like other states, should implement random drug testing as a requirement to receiving state-funded welfare benefits?

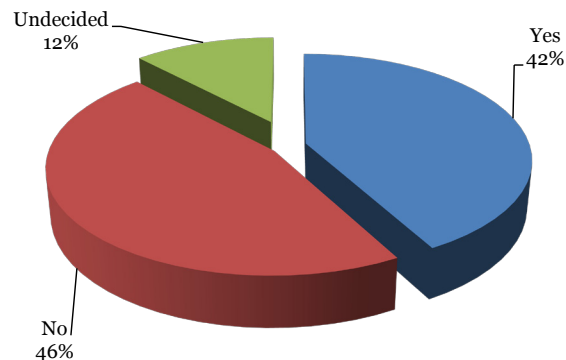

8. Overall, would you say that Indiana has done a better job of managing its finances than most other states?

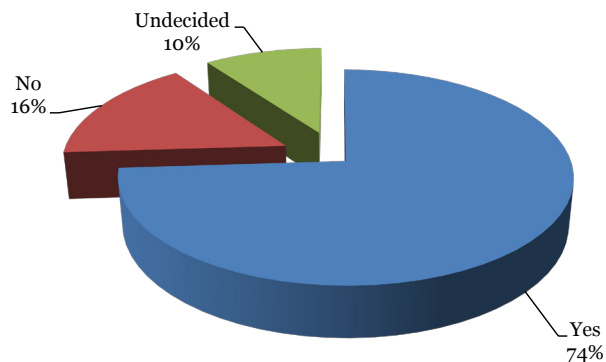

10. Do you support the expansion of high school career and technical education training courses to include a wider range of career training, including manufacturing and culinary?

7. Would you support making pseudoephedrine (a common ingredient in some cold medicines which is used in the production of Meth) available only by prescription?

9. Do you believe that providing tax incentives to new and expanding business is a good strategy for increasing employment opportunities available to Hoosier workers?
